

Family Faith Speaking Topics

- Generations of Faith: How your faith is the product of generations of family members. Tracking that journey and deciding what you want for your family.
- Prayer in the Family: prayer can be a confusing thing for children (and grown-ups too). John walks through a general introduction to prayer, some suggestions about how to pray as a family including how to start, answering children when they say, “my prayer didn’t work” or “this is boring.”
- Mass and the Family: Talking on the Mass is one of John’s favorite topics, and this talk can go in a variety of directions depending on your desired outcomes. John walks through the Mass to help explain the different stages and their meaning for both adults and children, how we worship at Mass with all our loved ones in heaven and earth, how Mass is our response to the First and Fourth Commandments, and how Mass is a family meal (Jesus the Bridegroom).
